Gallagher Command Centre
'Card Format' feature

Gallagher Command Centre vEL7.40.756
Gallagher Controller 6000 vGR7.40//b311
Gallagher legacy Controllers vBT7.40//b57

Part 1   Introduction

This release note is for the 'Card Format' feature of Gallagher Command Centre.

1.1   Purpose

The 'Card Format' feature enables a customised card format 'CustCardDLL' to be used with Gallagher Command Centre.

1.2   Compatibility

The following Gallagher software is supported:

- Gallagher Command Centre vEL7.40.756 (or later vEL7.40 release)
- Gallagher Controller 6000 vGR7.40//b311 (or later vGR7.40 release)
- Gallagher legacy Controllers vBT7.40//b57 (or later vBT7.40 release)

Command Centre and this feature have been tested using the operating system:

- Microsoft Windows 7 (64-bit)
- Microsoft Windows 10 (64-bit)
- Microsoft Windows 2012 (64-bit)

This feature has not been tested in a Command Centre multi-server environment.

This feature cannot be used in conjunction with any other 'CustCardDLL' on the same Controller.

Part 2   Installation

To install this feature, perform the following procedures:

2.1   Creating the 'CustCardDLL'
2.2   Installing the 'CustCardDLL'

Note: If a previous version of this feature has been installed, this must be uninstalled before installing this version. Refer to the topic *"Uninstallation"* later in this document.

2.1   Creating the 'CustCardDLL'

1.   In Command Centre Classic, click **Configure** from the menu bar, then **Device Software**. The Device Software Master List Window opens.

2.   What type of Controller are you installing this feature on?

If the Controller is a...	then...
6000	a. Right click and select **New... Controller 6000 Customisation**. By default the General tab displays. b. Enter the Name 'CustCardDLL', Description, and select the Division. c. Click the **Version** tab. d. Click the **Browse** button and path your way to the Device Software File, (e.g. PAB103CustCardDll_vGC7400x.fts) located in the customisation folder you have been provided.
3000-4R, 3000-8R, 5000 or 5000GL	a. Right click and select **New... Controller Customisation**. By default the General tab displays. b. Enter the Name 'CustCardDLL', Description and select the Division. c. Click the **Version** tab. d. Click the **Browse** button and path your way to the Device Software File, (e.g. PAB103CustCardDll_vBC7400x.fts) located in the customisation folder you have been provided.

3.   Highlight the file once located and click the **Open** button. The version of software displays in the Software Version field.

4.   Click **OK** to exit and save your changes.

2.2   Installing the 'CustCardDLL'

1.   In Command Centre, open the properties for each Controller.

2.   Click the **Software** tab.

3.   What type of Controller are you installing this customisation on?

If the Controller is a...	then...
6000	Drag (or copy and paste) the Controller 6000 Customisation item 'CustCardDLL' from the Device Software Master List Window to the **Customisations** grid on the Controller's **Software** tab.
3000-4R, 3000-8R, 5000 or 5000GL	Drag (or copy and paste) the Controller Customisation item 'CustCardDLL' from the Device Software Master List Window to the **Customisations** grid on the Controller's **Software** tab.

4.   Click the **Apply** button. The Controller will download the 'CustCardDLL' and then restart. When the Controller has restarted the **Software** tab will show the card format customisation in the 'Installed DLLs' column.

Part 3   Uninstallation

Should you wish to uninstall the 'Card Format' feature, this can be achieved by removing the card format customisation 'CustCardDLL' from all the Controllers' **Software** tabs, and then from the Device Software Master List Window.
